Windows 7 Student Wireless Network Authentication

1. Click on the connectivity bars next to the system clock
2. Click on the Students-Secure Wireless Network
3. Click Connect

4. Enter your CSUF Portal username and password. Click OK
5. If you receive the following Windows Security Alert, click the **Connect** button to allow the credential to be installed on your computer.

6. You are now connected to the **Students-Secure** Wireless Network!
